

California OES Weather Threat Briefing

Thursday, June 3, 2021
9:00 AM PDT

Day 1 (Thursday): Hot temperatures are expected statewide again today, with the most significant impacts possible across Inland Region.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

06/03/21 - 06/09/21

Thursday - Wednesday

- Generally dry conditions are expected through the week, though isolated showers and thunderstorms are possible in the afternoons across the mountains of Inland Region, especially Thursday and Friday
- Hot temperatures will continue over much of the state through Friday, with widespread 90s or 100+ degree readings expected across the southern deserts as well as much of the Central Valley. Moderate to locally high heat risk is expected. Cooler temperatures are expected for the weekend.
- Locally gusty winds of 25-40 mph and very dry conditions will produce elevated fire weather conditions each day, especially along mountain slopes
 - These winds will likely be strongest across the southern California mountains and deserts
 - An approaching trough late this weekend into Monday may cause critical fire weather conditions for northeastern portions of California
